Corporate Overview

Introduction

JMR Consulting UK Limited (JMR) is an established provider of software services and solutions. Incorporated in South Africa in 1987, the UK operations were launched in 2007 and now employ around 160 staff across the two locations.

JMR is an emerging software services and solutions company, focused on helping UK and South Africa clients benefit from their IT infrastructure and to support their business requirements.

Our services offering provides high quality technical resource at competitive market rates. The resource is known to the JMR management or provided through the JMR network of associates and partners. JMR also partners with software vendors to provide software solutions. The company has a strong team of highly experienced, well connected people, with years of experience in delivering technology solutions. Our team has a 20 year proven track record of successfully delivering business solutions and IT solutions across diverse technologies and in multiple industry sectors.

Delivering IT value to business; combining IT expertise with best of breed solutions

JMR Consulting UK Benefits

At JMR Consulting UK Ltd we combine the talent and expertise of our consultants with proven processes and robust technology to deliver results.

We offer a range of services, across the full systems development and implementation lifecycle: analysis, design, development, testing, implementation and project management. We will work with you to determine the most effective delivery strategy for your projects and will either find the right people or use our own staff to deliver fixed time, fixed price projects.

Our talent pool combines world-class information technology skills and the experience of delivering business critical services and solutions for leading companies. Effective Project Management is the key to successful delivery of complex business and IT projects. We can provide you with highly experienced senior project managers with years of project management experience who can work with you to deliver your projects.
