

## Software Services

### Introduction

JMR has maintained and expanded the original recruitment business established in 1987 in South Africa and prides itself in providing superior service and professional people to clients. It is a preferred supplier of specialised IT skills to top businesses, many of whom have been customers since the start of the business. JMR has over 160 internal resources and has access to over 1200 consultants on its books, with extensive Project management, technical and business experience. With well established recruitment and HR processes, encompassing a full lifecycle approach, JMR has the ability to provide the right skilled contract and permanent resources efficiently. JMR will provide the right people, because it knows where to find them, how to attract them and how to match them to the client specifications and culture so that they'll stay for the long-term.

Standing out from the crowd; making a difference

### JMR Core Values

We are here for the long run and continue to grow our business by exploiting our competitive edge achieved through unwavering focus and the can-do spirit of our people.

We have a shared philosophy, a system of beliefs that is applied daily and ensures our cohesion and forward momentum. It emphasizes that:

- our business exists to serve customers, not vice versa
- our customers are people, not faceless corporations
- intellectual capital constitutes our market differential
- customer success is our principal driver
- we constantly measure and improve our standards and strive for innovation
- we exercise the highest standards of business ethics and corporate governance
- our instinct for basic fairness underpins all

We firmly believe that only by adhering to these principles will we prosper and play a meaningful role in our chosen line of business.

## Value Proposition

JMR will use our own internal resource and a trusted network of associates and partners to find highly experienced staff for our clients.

We will underwrite the capabilities of the resource to perform the role and if a client is not satisfied we will find at replacement resource at our own cost. The resource will be mentored by a director from JMR, the associate or partner.

Our fees for the supply of the resource will be very competitive in the marketplace .
